Amazon.com: Customer reviews: CCNP SWITCH Lab Manual (Lab ...

Good lab book, will buy the same lab manual for CCNP ROUTE and TBSHOOT. Most study guides/books by Cisco Press are pretty good. You will need to have access to live Switches/Routers to use this lab manual. The only reason I didn't give it 5 stars is because of the hardware requirements to use this lab manual.

The Netacad lab manuals have always been pretty good, I'd say yes but it's hard to tell just how different it will be from the Route, Switch and TShoot lab manuals it will be (if you already have them). I have the v7 lab manuals and plan on getting v8, nothing wrong with using both to really deep dive into the labs if that's what you want to do.
