SARs-CoV-2 that causes COVID-19 is also a virus.

What's the difference between Bacteria and Viruses?

Fighting Bacteria with Viruses.

The emergence of superbugs, or multidrug resistant bacteria, has become a major challenge for pharmaceutical companies and a serious health-care problem. According to a 2013 report by the US Centers for Disease Control and Prevention (CDC), more than 2 million people are infected with drug-resistant bacteria in the US annually, resulting in at least 23,000 deaths ...
