~~—Core Elements~~

Dry needling
(DN) is
primarily
directed at
trigger points,
which are
identified as
tender palpable
points within
the muscle (you

Access Free Dry Needling

can often feel the bump by touch). These points can be caused by improper loading, sustained poor posture, physical and emotional stress, and dehydration.

~~Dry Needling~~
~~Sports Therapy~~
UK

Dry needling is a westernized concept based on acupuncture. It is a fast and effective technique used for pain relief, targeting specific muscles with fine

Access Free Dry Needling

needles. The needles relieve tension, increase blood flow to the region and improve efficacy of movement. It is possible to treat deep structures, such as the precision of the technique.

...

Dry Needling Dry
needling is a

Access Free Dry Needling

Sport
treatment method
which is rapidly
sneaking into
the artillery of
Physiotherapists
across the
world, with
terrific
results. Dry
needling uses
the same needles
as traditional
acupuncture, but
is backed by a

Access Free Dry Needling

different
philosophy. I
have seen some
amazing outcomes
with the use of
dry needling.

Trigger Point
Dry Needling for~~

Access Free Dry Needling Sport

Dry Needling |
Sports Lab
Myofascial Dry
Needling (or
MDN) is used for
the treatment of
muscle pain and
dysfunction.

This approach is
based on Western
anatomical and n
euro-physiologic
principles and

Access Free Dry Needling

is not to be confused with Chinese Acupuncture. MDN involves introducing fine, sterile acupuncture needles into “trigger points” of muscles.
